WORK EXPERIENCE

Application Development Analyst Accenture

12/2023 - Present

Roles & Responsibilities

- Collaborated with DevOps teams to set up and maintain CI/CD pipelines using Azure DevOps for automated building, testing, and deployment.
- Participated in Agile ceremonies (daily stand-ups, sprint planning, retrospectives) using tools like JIRA. Contribute to sprint goals, estimate work, and provide regular updates on progress.
- Maintained documentation for code, processes, and configurations. Keep project-related documents up to date for reference and knowledge sharing within the team.

Application Development Associate Accenture

09/2021 - 11/2023

Roles & Responsibilities:

- Developed and maintained client-facing web applications, ensuring a **responsive** and **user-friendly design**.
- Implemented complex UI/UX features using **React.js**, resulting in improved user engagement and seamless interactions.
- Collaborated with the design team to transform mockups and wireframes into pixel-perfect, **visually appealing web pages**.
- Conducted regular code reviews to maintain code quality, performance, and **cross-browser compatibility**.
- Worked closely with back-end developers to integrate **front-end components** and ensure seamless data flow.
- Utilized **Git for version control**, tracking changes and collaborating with team members effectively.
